### DETAILED ACTION

1. The title "Label switching system" can be made unacceptable depending on the election by Applicant and/or his Attorney. Title that is clearly indicative of the invention to which the claims are directed, is required.

### *Election/Restrictions*

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, **claims 1,5-12 and 16-22**, drawn to a label switching system, classified in class 370, subclass 392.

Group II, **claims 2-4 and 13-15**, drawn to flooding and/or managing network topology data, classified in class 370, subclass 254.

The inventions are distinct, each from the other because of the following reasons:

3. **Inventions I and II** are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the label switching system has different modes of operation, different functions and is independent from the flooding or managing network topology data.

Art Unit: 2667

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Samson Helfgott (of Katten Muchin Zavis Rosenmen) on April 2, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Blanche Wong whose telephone number is 703-305-8963. The examiner can normally be reached on Monday through Friday, 830am to 530pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chi H Pham can be reached on 703-305-4378. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
